

Let me help you downsize

Is your current home too big for your needs? Are you thinking of downsizing?

Now is the perfect time to depend on a reliable sales agent to guide you through the sale of your home. I specialize in working with seniors on their relocation. Let me help you cash in on your equity and find a home more suitable for your needs.

With my experience and professional expertise, I will:

- properly market your home with flyers, signs and other advertisements;
- ensure your listing reaches a large base of prospective buyers through the online multiple listing service (MLS);
- price your home to sell based on an analysis of your local market and comparable properties;
- help you understand your legal requirements as a seller and guide you through the paperwork so you don't have to worry; and
- communicate your needs and negotiate on your behalf to make sure you get the most out of your home sale — it's my job!

If you're ready to enlist the help of a dependable professional to sell your home and relocate, give me a call today.
