

Your small bathroom can look bigger

Tiny bathrooms feel tight, sometimes oppressive. Enhance the space visually with these simple tricks:

- ◇ **Expand** Instead of a heavy, opaque shower curtain, replace with a clear shower curtain or glass shower door. This immediately gives depth to the room.
- ◇ **Brighten.** Choose design-free, solid light colors for towels, rugs and other linens to open up the space.
- ◇ **Clean.** Remove bathroom clutter, clear off the sink and tuck away personal items in a cabinet or basket.
- ◇ **Glow.** Let the light shine in by replacing dull fixtures and adding mirrors to reflect light.
